The ACLS Training Manual also serves as a reference for each participant to prepare and follow the course, as well as a clinical reference. The training manual explains, among other things, how to systematically address cardiopulmonary emergencies, effective team communication and ACLS pattern cases and algorithms. Topics covered include the importance of continuous, high-quality HLW, teamwork and communication, care systems, emergency care after cardiac arrest, respiratory management and related pharmacology. The training guide also gives students access to a website with additional information and reference material for a Kursabschluss. Ein scheidt, zusätzliches Hilfsmittel, das digitale ACLS-Referenzkartenset, ist beim Kauf des ACLS-Schulungshandbuchs im eBook-Format inbegriffen. Bei diesem Referenzkartenset trades es sich um das electronic Äquivalent zum ACLS-Taschenkartenset. HINWEIS: Vor dem Erwerb eines AHA eBooks für einen Präsenzkurs sollten Kursteilnehmer mit dem Instruktor oder dem Koordinator Ausbildungszentrums des Instructors abklären, ob Mobilgeräte während des Kurses zulässig sind. More information This is an unbacked/non-refundable item. All sales are final. Description of the course: BLS is the basis for saving lives after cardiac arrest. The AHA's BLS course has been updated to reflect new science in the 2015 American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (2015 AHA Guidelines for CPR and ECC). This video-based, instructor-led course teaches both single-rescuer and team basic life support skills for application in both in-facility and prehospital settings. After successfully completing the BLS course, students should be able to • The importance of high-quality Resuscitation and its impact on survival describe all steps of the Survival Chain and apply the BLS concepts of the Survival Chain Recognize the signs of someone who needs CPR For adults, children and infants Describe the importance of early use of an AED and show its use Care for effective Ventilations using a barrier device Describe the importance of teams in multirescuer resuscitation and perform as an effective team member during cprscuer multirescuer Describe the technique for respiratory relief of the foreign body (suffocation) for adults and infants Product Specifications: The BLS Provider Manual eBook is the electronic equivalent of the AHA's BLS Provider Manual. It offers an alternative to the printed course manual and is for use by a single student before, during and after the BLS Course. Please note, there is a separate additional tool included, the BLS Digital Reference Card. This is the electronic equivalent of the BLS reference card and is automatically included when purchasing the BLS Provider Manual eBook. The AHA's eBook Store provides 24/7 access to browsing, buying, viewing and downloading AHA CPR, FIRST Aid and Advanced Cardiovascular Care Materials. The AHA's eBooks Store supports online access via internet browser or offline access on mobile devices through the AHA eBooks app or the offline reader iPublishCentral. Below are the technical specifications for bls vendor's eBook. Windows Internet Explorer -&gt; Version 9.0 (partial support- some features may not work as expected), version 10.0 and later (full support) Mozilla Firefox -&gt; Version 1930 and later Google Chrome -&gt; 35 and above Opera -&gt; Version 23 and above Mac Safari: Version 5.3 Firefox: Version 18 Opera: Version 23 and later NOTE: For full functionality, Flash version 18.0.0.160 and offline viewing: PC or To open aha eBooks offline, first download the iPublishCentral reader on the My Bookshelf page on using an Internet connection and current title(s) access rights • Adobe Air, the latest version iPad app Requires IOS 6.0 or later. Compatible with iPhone, iPad and iPod touch Available memory space 500MB and higher Android tablet app Android 4.0 or later, access to Google Play Market. Download the free app from AHA eBooks available from the Google Play Store. RAM 2GB Available memory space 500MB and higher intended audience: This course is designed for healthcare professionals and other personnel who need to know how to perform CPR and other basic cardiovascular life support skills in a wide range of facilities and pre-hospital settings.
